EQUINATOR™

PREMIUM EQUINE FEEDS

Proudly Serving the Northeast Since 1938!

CENTRAL CONNECTICUT COOPERATIVE

Company Profile

The Central Connecticut Cooperative Farmers Association is wholly owned by our farmer members and returns profits as a dividend to our members and patrons. We are the only farmer owned and operated feed mill in Connecticut.

Founded in 1938, the Central Connecticut Cooperative Farmers Association has grown significantly over the years to offer a full line of feeds and commodities for all types of livestock, poultry, equine and other companion animals. Our high quality feed is available by 50 lb. bags or in bulk depending on the size and needs of each farm.

The Central Connecticut Cooperative Farmers Association also provides free nutritional and management consulting, which includes customized feed programs for all animal species. We use state of the art scientific technology to customize feed programs specifically for your needs and we will provide customized feeds for orders as small as 1.5 tons. Our quality feed and superior nutrition programs will directly impact the performance and output of livestock, poultry, equine and other animals.

Our Goal at Central Connecticut Cooperative Farmers Association is...

to help keep agriculture alive in New England and New York by providing the highest quality animal feeds. We believe the future of agriculture will be determined by the diversification and continued existence of all types and sizes of farms.

CONSIDERATE PEOPLE

CONSIDERATE SERVICE

CONSIDER IT DONE

73 years of working for our community and customers to produce highest quality farm fresh finished feeds, which are all natural with no preservatives, at an affordable cost.

Message from the General Manager:

Thank you for the opportunity to introduce our company and our line of feeds for equines, livestock, poultry, and a variety of companion animals. We, at Central Connecticut Cooperative Farmers Association, are dedicated to producing excellent quality feeds and fulfilling the nutritional demands of our customers with considerate customer service.

“At Central Connecticut Cooperative, **your** animals mean as much to **us** as they do to **you**.” As a farmer owned, non-profit cooperative, we work for our customers as well as with our customers, who are the life and soul of our company. The backbone of the Co-op remains the same over 73 years: purchasing and processing raw materials to produce a high quality and cost effective feed.

Our ingredients are purchased locally and from all over the country. Every truck and rail car is inspected to ensure the highest quality product. We have formed strategic nutritional alliances using national and international panels of doctorate level nutritionists to assist us in our formulation of feeds. Our farm fresh, finished feeds are all natural and contain NO preservatives and have a fixed formulation and are consistent sourced. Feeds are available as stock formulas or as custom fit formulas to meet your animals’ specific needs.

The Co-op is staffed by feed specialists who have years of practical experience in dairy, beef, equine, poultry, and small species. In addition to our in-house formulation specialists, we call upon our resource of renowned equine nutritional specialists.

At CCC, we are devoted to the research and systematic and safe manufacturing of high quality feeds and are committed to the development of personalized nutritional programs. For 73 years, we have been dedicated to quality, value, and customer satisfaction.

Most sincerely,

Don Domina

Don Domina
General Manager

“At Central Connecticut Cooperative, YOUR animals mean as much to US as they do to YOU.”

Changing with New England— “Central Connecticut Co-op’s Scientific Approach to Equine Nutrition”

Since 1938, Central Connecticut Cooperative Farmers Association has been an integral part of the development of the face of agriculture throughout the Northeast. As the oldest and last fully farmer-owned cooperative in New England, the Co-op continues to grow and change with the modern needs of New England agriculture and the equine industry. The Co-op has been an ally and protector of farmers’ values for over 73 years. Principally dedicated to New England’s animal agriculture, we remain committed to bringing science to the forefront of animal nutrition.

The Co-op’s **Equine Division** takes 73 years in the production of premium quality feeds and has formed strategic alliances with nationally renowned equine nutritionists and scientists focusing on clinically researched and proven approaches to modern equine nutrition and health management.

THE CO-OP AFFIRMS ITS DEDICATION TO EQUINE NUTRITIONAL EXCELLENCE.

ALL EQUINATOR™ FEEDS CONTAIN THESE PREMIUM INGREDIENTS:

- **PrimaLac™**, a *Direct Fed Microbial*, having superior efficacy for maintaining optimal microflora balance and improves intestinal health
- **Omega 3 and Omega 6 Essential Fatty Acids**
- **Lysine** for consistent weight gain, feed consumption and efficiency
- **Yeast** for optimum fiber utilization, absorption of vitamins and minerals and improved bone development
- **Linseed meal** for hair growth and condition
- **Vitamin E, Vitamin B Complex, Vitamin C & Vitamin D**
- **Selenium** yeast-reacts as an antioxidant inducing repair of cellular damage, strengthening the immune system, reducing inflammation, increasing proper functioning of the thyroid, and promoting essential tissue elasticity
- **Biotin** for hoof integrity
- **Organic trace minerals** for elevated bioavailability

EQUINATOR™

11% EQUINATOR™ PERFORMANCE BH621

A pelleted, moderately high fat feed formulated for all types of horses at maintenance or used for light to moderate performance.

GUARANTEED ANALYSIS:

Crude Protein			(Min)	11.0 %
Lysine			(Min)	0.55 %
Crude Fat			(Min)	7.0 %
Crude Fiber	(Min)	13%	(Max)	17 %
Calcium (Ca)	(Min)	1.1%	(Max)	1.6 %
Phosphorus (P)			(Min)	0.7 %
Copper (Cu)			(Min)	30 PPM
Selenium (Se)			(Min)	0.60PPM
Zinc			(Min)	110 PPM
Biotin			(Min)	1.20 MG / LB
Vitamin A			(Min)	7,000 IU / LB
Vitamin D			(Min)	500 IU / LB
Vitamin E			(Min)	75 IU / LB

INGREDIENTS

Soybean Hulls, Wheat Middlings, Hominy, Corn Meal, Soybean Oil, Cane Molasses, Calcium Carbonate, Soybean Meal, Di-Calcium Phosphate, Salt, Yeast Culture, Vitamin E Supplement, Zinc Sulfate, Zinc Protein, Ferrous Sulfate, Manganese Sulfate, Biotin, Manganese Protein, Selenium Yeast, Copper Sulfate, Mineral Oil, Copper Protein, Choline Chloride, Vitamin C, Niacin, Sodium Selenite, Riboflavin, Thiamine, Vitamin A Supplement, Vitamin D3 Supplement, Pyridoxine HCL, Cobalt Protein, Panthothenic Acid, Vitamin B-12, Beta-Carotene, Menadione Sodium Bisulfate Complex, Ethylenediamine Dihydriodide (Eddi), Cobalt Sulfate, Folic Acid, Dry Fat, Linseed Meal, Magnesium Oxide, Lactobacillus acidophilus fermentation product, Lactobacillus casei fermentation product, Enterococcus fermentation product, Bifidobacterium thermophilum fermentation product, Methionine Supplement.

All Equinator Feeds Feature:

- Premium quality ingredients
- Fixed and fortified formulation
- Chelated trace minerals
- Added amino acids
- Organic selenium
- Added B vitamins including Biotin
- Added Vitamin C, D, and E
- Essential Omega 3 and Omega 6 fatty acids
- PrimaLac™ Direct Fed Microbials
- Diamond V XPC Yeast culture

Feeding Directions:

Feed 1/2 to 1 pound for each 100 pounds of body weight to maintain your horse in moderate body condition. Age, activity level, and individual metabolism rate will determine poundage per 100 pounds body weight. If less than the recommended amount is being fed per day, supplementation will be required.

Feed with good quality hay or pasture according to weight, body condition, and activity. Supply plenty of fresh, clean water at all times.

EQUINATOR™

12% EQUINATOR™ INTEGRITY BH617

A well-balanced pelleted feed formulated for mature horses at maintenance or for pleasure, show and performance.

Copper (Cu)			(Min)	30 PPM
Selenium (Se)			(Min)	0.60 PPM
Zinc			(Min)	120 PPM
Biotin			(Min)	1.20 MG / LB
Vitamin A			(Min)	7,000 IU / LB
Vitamin D			(Min)	500 IU / LB
Vitamin E			(Min)	100 IU / LB

INGREDIENTS

Wheat Middlings, Soybean Hulls, Dried Condensed Corn Fermentation Solubles, Processed Grain By-products, Dried Bakery Products, Grain Products, Calcium Propionate, Glutamic Acid, Citric Acid (as a preservative), Natural mixed Tocopherols, Rosemary Extract, Natural and Artificial Flavors., Soybean Oil, Calcium Carbonate, Corn Meal, Soybean Meal, Cane Molasses, Linseed Meal, Salt, Rice Bran, Flaxseed, Yeast Culture, Vitamin E Supplement, Zinc Sulfate, Zinc Proteinate, Ferrous Sulfate, Manganese Sulfate, Biotin, Manganese Proteinate, Selenium Yeast, Copper Sulfate, Mineral Oil, Copper Proteinate, Choline Chloride, Vitamin C, Niacin, Sodium Selenite, Riboflavin, Thiamine, Vitamin A Supplement, Vitamin D3 Supplement, Pyridoxine HCL, Cobalt Proteinate, Panthothenic Acid, Vitamin B-12, Beta-Carotene, Menadione Sodium Bisulfate Complex, Ethylenediamine Dihydriodide (Eddi), Cobalt Sulfate, Folic Acid, Dry Fat, Lactobacillus acidophilus fermentation product, Lactobacillus casei fermentation product, Enterococcus fermentation product, Bifidobacterium thermophilum fermentation product.

All Equinator Feeds Feature:

- Premium quality ingredients
- Fixed and fortified formulation
- Chelated trace minerals
- Added amino acids
- Organic selenium
- Added B vitamins including Biotin
- Added Vitamin C, D, and E
- Essential Omega 3 and Omega 6 fatty acids
- PrimaLac™ Direct Fed Microbiotics
- Diamond V® XPC yeast culture

Feeding Directions:

Feed 1/2 to 1 pound for each 100 pounds of body weight to maintain your horse in moderate body condition. Age, activity level, and individual metabolism rate will determine poundage per 100 pounds body weight. If less than the recommended amount is being fed per day, supplementation will be required.

Feed with good quality hay or pasture according to weight, body condition, and activity. Supply plenty of fresh, clean water at all times.

A pelleted feed formulated to supplement the hay ration and fortified with vitamins, minerals and Biotin. Better than a plain hay stretcher!

INGREDIENTS

Soybean Hulls, Wheat Middlings, Alfalfa Meal, Calcium Carbonate, Vegetable Oil, Di-Calcium Phosphate, Salt, Yeast Culture, Vitamin E Supplement, Zinc Sulfate, Zinc Proteinate, Ferrous Sulfate, Manganese Sulfate, Biotin, Manganese Proteinate, Selenium Yeast, Copper Sulfate, Mineral Oil, Copper Proteinate, Choline Chloride, Vitamin C, Niacin, Sodium Selenite, Riboflavin, Thiamine, Vitamin A Supplement, Vitamin D3 Supplement, Pyridoxine HCL, Cobalt Proteinate, Panthothenic Acid, Vitamin B-12, Beta-Carotene, Menadione Sodium Bisulfate Complex, Ethylene-diamine Dihydriodide (Eddi), Cobalt Sulfate, Folic Acid, Lactobacillus Acidophilus fermentation product, Lactobacillus casei fermentation product, Enterococcus fermentation product, Bifidobacterium thermophilum fermentation product.

All Equinator Feeds Feature:

- Premium quality ingredients
- Fixed and fortified formulation
- Chelated trace minerals
- Added amino acids
- Organic selenium
- Added B vitamins including Biotin
- Added Vitamin C, D, and E
- Essential Omega 3 and Omega 6 fatty acids
- PrimaLac™ Direct Fed Microbials
- Diamond V® XPC yeast culture

Feeding Directions:

Feed 1 pound for each 100 pounds of body weight to replace not more than one half of hay consumption per day.

As a grain, this feed has adequate nutrients to fulfill needs of the easy keeper . Feed 1 to 1 1/4 pound per 100 pounds of body weight.

Feed with good quality hay or pasture according to weight, body condition, and activity. Supply plenty of fresh, clean water at all times.
