

TRIBUTE®

TRIBUTE GROWTH PELLETS

A high-fat, low-starch, low-sugar feed formulated for young growing horses, pregnant and lactating mares.

PRODUCT CODE: 916P

FEATURES AND BENEFITS

- Lowering the Non-Structural Carbohydrate (NSC=sugar + starch) content will reduce the insulin response in horses. Elevated insulin levels can inhibit hormones important to normal bone development and contribute to developmental orthopedic disease.
- “Fetal Programming”—feeding high NSC diet to pregnant mares may increase the likelihood of her foal developing insulin resistance/metabolic syndrome.
- NO CORN FORMULA!!!...to keep the sugar and starch levels low in your horse’s diet.
- DESIGNED WITH HIGHER FAT and HIGHLY DIGESTIBLE FIBER for calmer horses and improved gut health.
- PROVIDES THE OPTIMAL BALANCE OF ESSENTIAL AMINO ACIDS for growth and muscle maintenance.
- SUPPLIES ESSENTIAL ORGANIC MINERALS to support normal bone and tissue growth.
- PROVIDES THE ESSENTIAL FATTY ACIDS, required for healthy skin, healthy haircoat and support of normal tissue function.
- HIGHER LEVELS OF ESSENTIAL VITAMINS E AND C, AS WELL AS SELENIUM – IMPORTANT ANTIOXIDANTS, effective in reducing damage to body tissues and enhancing your horse’s immunity.
- Yeast Culture for improved fermentation, fiber digestion and phosphorus absorption.
- Formulated with **SEL-PLEX** **BIOPLEX** & **INTEGRAL***
